MESSAGE FROM THE PRESIDENT

For the first time in the FCI's history going back almost one hundred years, the FCI members and other interested persons are informed via an Annual Report of the activities undertaken in the FCI in 2008, together with details on the financial situation, the activities of the FCI office and on life with dogs in general. In business life, annual reports play an important role in assessing the state of an institution. This first Annual Report is to be seen in certain respects as a pilot project with which we ourselves can gain experience in order to further develop this work in coming years and, if necessary, adapt it to the needs of our international organisation. Our statistics serve as a case in point here. With their missing and sometimes inaccurate data, they definitely need to be improved. We however remain dependent on reliable input from our members. In this first Annual Report we are restricting ourselves to reporting and commenting on the actual figures of 2008, and abstaining from publishing opinions on dog keeping in general. We intend to widen the scope for such subjects in coming years and to encourage discussions on them.

THE GENERAL COMMITEE

The General Committee met three times in 2008 to perform the tasks assigned to it. In addition the members of the Executive Committee dealt with preparing the General Committee meetings and current administrative

business in three meetings. I would like to take this opportunity to tell you that cooperation within the General Committee and with the FCI office in Thuin can only be described as pleasant and efficient.

COOPERATION WITH THE MEMBERS

Mostly, the cooperation with the members can be considered as efficient and friendly. We are absolutely dependent upon the active cooperation of the members to

carry out our work efficiently and perform important tasks on time.

"MUSEUM" IN THUIN

Work on extending our "Museum" in Thuin continues to progress slowly. The collection of books, pictures and other objects has not grown much in the last few years and we therefore call on members to provide us with typical collectables for our small museum in Thuin.

COMMISSIONS

I would like to inform you that our specialised commissions are without exception working with great commitment. A number of well-founded technical proposals have resulted from the meetings of these commissions during the period under review.

At present there are 3 mandatory and 16 non-mandatory commissions within the FCI: **MANDATORY:** Legal Commission, Standards Commission, Scientific Commission

NON-MANDATORY: Commissions for: Shows, Show judges, Utility dogs, Sledge dogs, Herding dogs,

Rescue dogs, Agility, Obedience, Breeding, Retrievers, Ferreting dogs, Hounds,

British pointers, Continental pointers, Spaniels, Sighthounds Racing

JUDGE'S TRAINING

The subject of providing show judges with initial and further training remained an unsolved problem in the period under review. There are however starting points available for getting to grips with the subject. The two subjects of training and appointing show judges will

continue to accompany us in the coming years. We continue to strive for a global position in this domain, meaning that we would like to see improved consistency in the training and appointment of show judges in the different countries.

MEETINGS WITH THE KENNEL CLUB, THE AMERICAN KENNEL CLUB AND THE CANADIAN KENNEL CLUB

There have been no fundamental changes in our contacts with the Kennel Club and the American Kennel Club. We were at least able to conclude a cooperation agreement with the AKC. The biggest differences still relate to breed standards and remain a permanent subject in all contacts with the AKC.

What is interesting and promising is the exchange of experience in the area of scientific cynology, where both the AKC and the KC have carried out excellent work, from which we can also benefit.

The question of allowing Canadian Kennel Club judges to officiate at FCI international shows was still under discussion at the end of 2008. There were however no signs of any positive solution being arrived at.

SECTIONS

As can be observed at European section level it is difficult to build up a continental lobby for our dogs. Only a few influential politicians seem to be prepared to defend our cause. We would like to thank the representatives from the European section for their unceasing efforts in establishing the contacts with the European Parliament and the European Union. I would like to take the op-

portunity to thank the three presidents of our continental sections and their colleagues for their good work and wish them strength and success for the tasks ahead. In many respects the sections are somewhat closer to what is happening on ground level in the regions and countries and they have the opportunity to react faster and more efficiently to legal measures than we are able to.

GENERAL REMARKS

In various countries there are increasing attempts to strengthen state influence on keeping dogs. At present life with dogs is often subject to ridiculous laws mostly making things more difficult. This is no problem when such provisions are directed at excesses in canine matters, such as dog trading. Whenever anything can be done to improve canine health, we are perfectly willing to cooperate and provide support. However we feel that laws and regulations are often adopted without our in-

volvement and with members either being consulted at too late a stage or not at all. Impossible laws are the result, drawn up by theorists and containing provisions which are difficult to respect in breeding and handling. It is our opinion that life with a dog must continue to be a source of joy and happiness. Laws and regulations should be there to support dog breeding not to hamper it! This applies also to the unduly strict selection and breeding requirements from the breed clubs.

THE GLOBAL ECONOMY AND CYNOLOGY

The past year was marked by a hard-hitting credit crisis, which had its roots in America and developed into a global financial crisis consequently affecting the whole real economy. In 2008, the year under review, cynology was hardly affected, with attendance figures for dog shows remaining on a high level. This had a positive effect on our accounts and we were able to close the financial year with a healthy operating surplus. Our investments did however suffer book losses, but these

should be corrected in the coming years as the value of repayments is contractually fixed. The direction the world economy will take is difficult to forecast, just as is the ultimate depth and duration of the recession. The more pessimistic sentiment becomes, the more companies and private individuals will be inclined to cut back expenditure. Whether and to what degree this will affect cynology is also difficult to judge. We will have the answer at the end of 2009.

CLOSING REMARKS

In conclusion, I would like to thank my colleagues of the General Committee, the members of the commissions, those responsible in the national associations, as well as Mr De Clercq and his staff in the FCI Office most sincerely for the good work done. I would also like to thank Ms Marie Luna Durán for drawing up and imple-

menting this first FCI Annual Report. There is no doubt that a lot remains to be done in the future. It is not without grounds that we are called upon to remain vigilant and prevent further dog-unfriendly measures initiated by governments and official institutions taking us by surprise.

INTRODUCING THE FCI

INTRODUCTION

The Fédération Cynologique Internationale is the World Canine Organisation. It includes 83 members and contract partners (one member per country) that each issue their own pedigrees and train their own judges. The FCI makes sure that the pedigrees and judges are mutually recognised by all the FCI members.

The FCI recognises 339 breeds. Each of them is the 'property' of a specific country. The 'owner' countries of the breeds write the standard of these breeds (description of the ideal type of the breed), in co-operation with the Standards and Scientific Commissions of the FCI, and the translation and updating are carried out by the FCI. These standards are in fact the reference on which the judges base themselves when judging in shows held in the FCI member countries; they are THE reference assisting the breeders in their attempt to produce top-quality dogs.

Every member country conducts international shows (conformation shows) as well as working/hunting trials and tests, as well as races/coursing.

Results are sent to the FCI office where they are processed. When a dog has been awarded a certain number of awards, it is eligible to receive the title of International Beauty, Show or Working Champion. These titles are confirmed by the FCI.

In addition, via the national canine organisations and the FCI, every breeder can ask for international registration of his/her kennel name.

Moreover, the FCI publishes a trimestrial magazine in four languages (French, English, German and Spanish). Any information on this publication is available from STRATEGO, Muhlenweg 4, 7221 Marz, Austria.

Eventually, the FCI keeps a list of all the judges appointed by its different members.

HISTORY

The Fédération Cynologique Internationale was created on May 22nd, 1911 with the aim to promote and protect cynology and purebred dogs by any means it considers necessary.

The founding nations of the FCI are as follows:

- Germany (Kartell für das Deutsche Hundewesen und Die Delegierten Kommission)
- Austria (Österreichischer Kynologenverband)
- Belgium (Société Royale Saint-Hubert)
- France (Société Centrale Canine de France)
- The Netherlands (Raad van Beheer op Kynologisch Gebied in Nederland)

The Federation disappeared due to the first World War and in 1921, the Société Centrale Canine de France and the Société Royale Saint-Hubert re-created it.

The new articles of association were adopted on April 10th, 1921 and on March 5th, 1968, the FCI got the legal personality by decree.

STRUCTURE

MAIN ACTIVITIES

To process the results of international shows where the CACIB (Certificat d'Aptitude au Championnat International de Beauté) is awarded.

To process the results of the different working trials

- with awarding of the CACIT (Certificat d'Aptitude au Championnat International de Travail)
- with awarding of the CACIL (Certificat d'Aptitude au Championnat International des Courses de Lévriers)
- with awarding of the CACIOB (Certificat d'Aptitude au Championnat International d'Obéissance)
- with awarding of the CACIAG (Certificat d'Aptitude au Championnat International d'Agility)

To register kennel names at international level.

To confirm the titles of International Beauty Show, Working, Obedience, Agility and Racing Champion.

To update and translate the breed standards into the four FCI working languages (French, English, Spanish and German).

To keep up to date the lists of judges internationally licensed to award the CACIB in international shows.

To translate and update the various international regulations.

To set up the calendar of the international dog shows and events.

Contrary to a widespread idea, the FCI is not a registry and does not issue any pedigree. In addition, it has no records of breeders addresses; this information is available from the national canine organisations recognised by the FCI.

MISSION STATEMENT

INTRODUCTION

In accordance with the celebration of the 100 Anniversary of the Fédération Cynologique Internationale, the General Committee of the FCI reviewed its Mission and Vision Statements and Values to maintain our leadership worldwide.

MISSION STATEMENT

The FEDERATION CYNOLOGIQUE INTERNATIONALE (FCI) is the supreme authority of the canine culture worldwide. The FCI is responsible for safeguarding canine health and international dog activities to enhance the relations between dogs and humans.

Established in 1911 the FCI includes 83 members and contract partners (one member per country). Each member issues their own pedigrees and train highly qualified judges. The FCI makes sure that the pedigrees and judges are mutually recognised by all the FCI members, contract partners and any person involved in their domestic canine scene.

VISION STATEMENT

The FCI supports, via its members and contract partners, the well-being of all dogs Worldwide.

FCI VALUES

- THE FCI cares about all dogs worldwide.
- THE FCI considers the health, temperament and behaviour as the most important matters in dogs and their Breed Standards.
- THE FCI promotes dog activities and dog sports worldwide, which it considers beneficial to the dogs.
- THE FCI entrusts its commissions to make recommendations about other important matters.
- THE FCI divides geographically the world of dogs through its five sections.
- THE FCI trusts its members and contract partners to protect the integrity of their National Registries.
- THE FCI recognizes and respects agreements with nonmember national organisations.
- THE FCI sets the highest standards for its headquarters.
- THE FCI ensures the regular celebration of World and Section Championship events.

INTRODUCTION

Dans le cadre du futur 100^e anniversaire de la Fédération Cynologique Internationale, le Comité Général de la FCI a revu la mission, les visions et les valeurs de la FCI afin de maintenir notre position de leader mondial.

MISSION DE LA FCI

La FEDERATION CYNOLOGIQUE INTERNATIONALE (FCI) est l'autorité cynophile mondiale. Elle est responsable de la préservation de la santé des chiens et des activités canines internationales dont le but est de promouvoir les relations entre le chien et l'homme.

La FCI a été fondée en 1911 et compte 83 membres et partenaires sous contrat (un membre par pays). Chaque membre émet ses propres pedigrees et forme des juges de manifestations canines hautement qualifiés. La FCI garantit la reconnaissance des pedigrees et des juges par tous ses membres, partenaires sous contrat, ainsi que par toute personne active sur leur scène canine nationale.

VISION DE LA FCI

Par l'intermédiaire de ses membres et partenaires sous contrat, la FCI soutient le bien-être de tous les chiens dans le monde entier.

EXECUTIVE DIRECTOR'S REPORT

WELCOME BY THE FCI EXECUTIVE DIRECTOR: YVES DE CLERCO (BELGIUM)

Dear Readers,

2008 ended up a couple of months ago and 2009 already is well on its way. It was time, we believed, for the Fédération Cynologique Internationale (FCI), to publish its very first Annual Report ever.

The figures we could collect this year are impressive and reflect a strong, big and very active organisation. Indeed, with a membership of 83 member countries, more than 2.000.000 puppies registered by the different members in 2008, with an individual membership of 2.500.000 and more than 9.000 judges, the FCI definitely is the biggest worlwide canine federation in the world.

LIFE AT THE FCI OFFICE

OUR STAFF

This is the very first time that I have the opportunity to introduce our staff which is, daily, cooperating with the member organizations. The FCI team, of which you can see the pictures in this Report, is made up of 12 people, most of them multilingual. The office is divided into five main sections: administration and accountancy, shows and trials, standards, judges and titles. In 2008, we have hired one more person, Ms Grimmelprez, who is in charge of the CACIB department. In order to be able to cope with the daily reality, the cur-

rent and future financial and commercial challenges, the new « internet » era and the importance of our corporate image, we have created a new function and looked for a Public Relations and Marketing Manager. After a first unsuccessful attempt, we found a « house » candidate, Ms Luna Durán. Since January 2009, we have also hired, on the basis of a fixed-term (6 months) contract, one extra colleague, in charge of processing the CACIB lists of results.

OUR HEADQUARTER

We had major renovation works at the office in 2008. We found it important to be able to offer our visitors a nice place where they could be kept waiting, have a good cup of tea or coffee or have a discussion with FCI

representatives. We had the pleasure of several visits : a team of AERCAN (Ecuador), the President of the FCI commission for utility dogs, a team from Saudi Arabia,

FCI WEB PAGE (HTTP://WWW.FCI.BE) AND COMMUNICATION

Nowadays, communication very often rhymes with Internet. This is, indeed, a major communication tool for a company, be it commercial or non-profit making. Anyone in the world can access any information about the FCI at any time. It is essential to develop a website which will meet most of our members' requests and expectations. We are making sure that by the end of 2009, all requests can be responded via the information online, that any document can be downloaded and that all the circulars (2008-2009) be made available. In addition, the FCI magazine will soon be online and any member or private person will be able to read it. With 83 members and thousands of letters to be sent worldwide every year, we used to be one of the very good clients of the postal

services of our small city, Thuin !! We however decided that in 2009, it was high time to definitely step into the 21st century and enjoy its wonderful technical progress, more specifically in terms of electronic communication and data processing. Consequently, in 2009, most of our letters, circulars and communications will be forwarded to the members and to the delegates of our commissions by email exclusively. Another project for this year consists in implementing a system which will allow to include the proposals of CACIB into our database immediately, avoiding them a useless re-processing. We do hope that we shall be able to finalise this project by the end of the year.

COOPERATION WITH EUKANUBA

The FCI and Eukanuba have been partners for a couple of years and cooperate on a couple of points and issues, mainly linked to the FCI Magazine, the FCI Website, Eukanuba products and the Eukanuba World Challenge. In the 21st century, this was an opportunity we could not miss. Eukanuba and FCI are partners for excellence in

dogs and they share many common views, of which the first is of course the welfare of all dogs worldwide. Eukanuba was seeking for a reliable and strong partner and the FCI was looking for a partner with a huge visibility: the wedding was doomed to happen to the great satisfaction of both organisations.

NEW TITLE OF CIE (CHAMPION INTERNATIONAL D'EXPOSITION) AND MAJOR CHANGES IN THE RULES

End 2008, the General Committee has met a wide-spread wish: the possibility for non-working (utility and hunting) breeds to get a title of International Champion WITHOUT having to pass a hunting or utility test. This is a major change, indeed, but the title of CIT (Champion International de Travail) is of course maintained as we believe that to keep the working

abilities of our canine breeds is of utmost importance. Some other amendments were brought into our Internal Championship Regulations, precisely with regard to the requirements for the title of CIT. Another major change is the possibility for herding dogs to take international herding tests and therefore be given the opportunity to get the title of CIB (Champion International de Beauté).

FCI ACTIVITIES

The FCI members, as every year, have been particularly active in all fields: shows, utility and tracking tests, obedience and agility contests, hunting tests, sighthounds races, etc. A particular section of this report is dedicated to these statistics and to our specific working commissions. Besides all the world and section "working" championships which have all been

very successful, the world dog show in Sweden and the different section shows proved to be very popular and were much appreciated. It is impressive to see that our members and partners have organized 683 International CACIB shows with a total participation of 832.768 dogs from which we have confirmed 91.221 CACIB's.

Please take a few minutes to see the different interesting rankings below:

Show entry Top 5 in Europe	Top World Average Show Entry :
1. Sweden : 92,265 dogs	Luxemburg: 4,781 dogs/show
2. Finland : 79,590 dogs	
3. France : 72,963 dogs	
4. Germany : 47,824 dogs	
5. Russia : 43,875 dogs	
Show entry Top 3 in The Americas and Caribbean	Show Entry Top 1 in Africa
Brazil : 11,289 dogs	Southern Africa: 697
Argentina: 6,165 dogs	
Mexico: 1,596 dogs	
Show entry Top 5 in Asian and the Pacific	
Japan : 15,422 dogs	
Taiwan : 3,208 dogs	
Republic of South Korea: 2,530 dogs	

Similar rankings could be established for lots of different sectors. We however believe that the « statistics » section reflects quite well the intensity and the enthusiasm of our members and partners.

I would like to thank all the readers for the time they will take to read this Report which, we believe, is a true mirror of what happened last year. We tried to be as com-

plete as we could. A $\mbox{\sc e}$ first time is always important and unforgettable $\mbox{\sc "}.$

Best regards,

Y. De Clercq FCI Executive Director

OUR COMMISSIONS

FCI STANDARS COMMISSION - 2008 ACTIVITY REPORT

Activities in 2008 began with our meeting in Tel Aviv (Israel). It was an excellent and very friendly organisation by Mr Zeev Trainin and the president of the Israel Kennel Club, Mr Avi Goldberg. We examined the modified new standards for: Berger de Brie, French Spaniel, Portuguese Sheepdog, Serra da Estrela Mountain Dog, Castro Laboreiro Dog, Alentejo Mastiff, Portuguese Warren Hound-Portuguese Podengo, Portuguese Pointing Dog and Portuguese Water Dog and submitted them to the General Committee for approval.

A long list of amended standards was looked into: among them, the German Boxer where the Commission, once again, agreed to follow the wish of the countries of origin to have "Naturally stumpy tail" under Eliminating faults.

We agreed to propose a change of heading from Eliminating Faults to Disqualifying Faults. A list, compiled in collaboration with Prof. Denis that state breeds that can have a genetic blue or brown colour according to their standards was presented.

Joint with the Scientific Commission in Tel Aviv.

The collaboration between our Commission and the Scientific Commission is, as always very friendly and productive. In Tel Aviv we agreed to propose a new breed, the Danish-Swedish Farmdog for provisional recognition. We had extended discussions about the crossbreeding between breed varieties and how it was linked to the allocation of CACIBs to breed varieties. It was the Commissions' opinion that this matter needs a thorough investigation.

The Commissions shared the opinion to propose a change of heading from Eliminating Faults to Disqualifying Faults. It was also said that it was not in the interest of genetic diversity to disqualify a dog for having light eyes or a white spot in the chest etc. and - as stated so many times before - requests like "free of Hip Dysplasia" should never be allowed in standards. The Commissions also shared the opinion that a list with breeds that can have a genetic blue or brown colour would be beneficial. I informed about the merger between the Karelo-Finnish Laika and the F.C.I recognised Finnish Spitz that was decided at a meeting between the Russian and Finnish Kennel Clubs in July 2007. Both Commissions congratulated to this sensible solution. The Standards Commission held a further meeting in Novemver 2008. It took place in Montevideo, Uruguay with excellent organisation by Mr Jorge Nallem and Dr Margarita Duran.

A new breed from Thailand, the Bangkaew Dog was presented and the standard and drawings were studied. This breed is an Asian spitz type of dog.

We examined the modified new standard for the Swedish Vallhund, the Dutch Shepherd Dog, the Pekingese and the long-haired Pyrenean Sheepdog. Rectifications were also made in the standard of the Australian Shepherd. All were submitted for approval by the General Committee.

A long list of amended standards was looked into.

Joint with the Scientific Commission in Montevideo

The Commissions again took up discussions about cross breeding between breed varieties as it has an important health factor. The discussions only regarded varieties of coat texture and colour and not differences in size. As stated before, both Commissions approved crossbreeding when necessary and thought it should not be prohibited because of the CACIB allocation to varieties.

I informed about the "Preliminary Statement", a document suggested to be inserted in all F.C.I standards, which was said to have been approved by the General Committee in September 2008, at the General Committee meeting in Bad Tatzmanssdorf. The paper was published in the 3rd issue of the FCI Magazine stating the "Preliminary statement" to be effective in all standards as of January 1st 2009.

Neither the Commissions nor the Ad hoc working party for Health in Pedigree dogs were informed, hence it was decided in Montevideo to send an answer to the General Committee.

A study of changes in Group Nomenclature was presented. The intention was to have it circulated among the member countries for an opinion. Some countries already stated that they were in favour of a change but would like to discuss several solutions. The Standards Commission welcomed suggestions, in writing, from the Member Countries.

Professor Bernard Denis was complemented for his excellent work in the book "Coat Colours in Dogs", published by Royal Canin. We also cleared the question if the liver brown colour could present a health risk – the colour as such does not.

The subject of mentioning any anatomical disorder in a standard (like Hip Displasia) that cannot be assessed by the human eye was again strongly advised against by both Commissions.

I would like to thank my colleagues in both Commissions for excellent collaboration and the staff at the General Secretariat in Thuin for their splendid support.

My personal and sincere thanks to all for all the help I have received during my first term in office.

Renée Sporre-Willes President of the FCI Standards Commission

FCI SCIENTIFIC COMMISSION - 2008 ACTIVITY REPORT

The Scientific Commission's main focus is on dogs' health, with its highly-qualified members representing various veterinary fields.

The Commission met twice in the course of last year. These meetings were held in well-established and now traditional manner in conjunction with the Standards Commission - at the same place and at the same time. The meetings of the two Commissions are held separately, but with a joint discussion afterwards. This enables issues of common interest to be dealt with. The work in both Commissions has a lot to do with each other, with contact also being sought to the Breeding Commission in certain cases.

The work in the meetings is however not the only activity carried out by the Commission.

The FCI Executive Committee, the General Committee and the Executive Director entrust us with tasks and consultations. We are also available for consultation by kennel clubs and individual FCI members.

One ever-present task is our participation in the application procedure for the temporary and definitive recognition of new breeds. It is our job to verify the required eight different blood lines, the dogs' genetic health and the fulfilment of the breed standard.

Within the timeframe covered by this report, Mr. Uwe Fischer's working paper "Gesündere Hunde durch Verbesserung des Rassestandards" ("Healthier dogs through improvements in the breed standard") continued to receive widespread attention. The ad hoc Commission, made up of two members each from the Scientific and the Standards Commissions, was active this year as well.

Following the FCI seminar in Copenhagen on diagnosing hip dysplasia (HD) using radiology, which was attended by HD specialists from 26 FCI countries, an ad hoc group consisting of a number of specialists was formed to draw up recommendations on the organisation and execution of such examinations.

The Scientific Commission discussed the suggestions in depth and revised them.

The version adopted at the last meeting of the Commission was submitted to the General Committee for approval. In our mind, the result should be made known to all FCI clubs and organisations in a circular and also put on line on the FCI website.

As the basis for fighting this hereditary disease, a uniform screening procedure valid all over the world would be of great value for breeding measures.

The Commission is of the opinion that the subjective reports on pure-bred dogs that are continually cropping up in the media are often based on a lack of information. The Commission has therefore suggested to the General Committee that it be given a section of the FCI website which it can use to provide a steady stream of information and details on the activities and effort being invested in dogs' health. The FCI Magazine could also benefit from this.

With regard to doping controls at dog shows and trials, the Commission has set out a framework for the principle measures required. It is based on the rules currently applied in Sweden. A survey on doping recommended by the Commission (circular 23/2005) had shown that the majority of kennel clubs do not carry out any doping controls.

One matter of great importance to the Commission, with the backing of the Standards Commission, is Prof. B. Denis's (one of our members) book – published by Royal Canin – containing a standard nomenclature for the colours of dogs' hair. Before defining the wide range of colours and their nuances, the book goes into the genetics behind the colours. The two Commissions have recommended the General Committee to officially recognise this manual for use by judges and breeders.

The two Commissions remain in joint discussion over the problem of cross-breeding varieties within a breed. As yet, no decision has been reached.

Our main discussion partners in this report period were President Hans W. Müller, Executive Director Yves De Clercq, the members of the General Committee and the Standards Commission. We thank them for their understanding and cooperation.

Wilhelm Brass President of the FCI Scientific Commission

FCI LEGAL COMMISSION - 2008 ACTIVITY REPORT

In the first 5 months of 2008, the Legal Commission, some members and their president discussed and amended the draft of the new statutes with the General Committee and the European section. We tried to settle the multiple contrary opinions between the two organisations with regard to the final wording of the statutes to submit to the General Assembly. The president attended a meeting of the European section in Brussels to advo-

cate the opinion of the General Committee. Furthermore, the president advised the General Committee in the second half of the year in the matter of the worldwide protection of the FCI Logo and the "brands" CACIB and RCACIB.

Franz Scheibler President of the FCI Legal Commission

FCI SHOW JUDGES COMMISSION - 2008 ACTIVITY REPORT

In February 2008 the Show Judges commission convened in the Netherlands. 34 delegates took part in the meeting. It was the highest participation number ever since the commission was created.

A basic version of "Basic education from dog lover to a dog-loving FCI judge" was discussed.

A working group made up of Mrs Molinari (Portugal), Mr Landarte (Uruguay), Mr Wauben (the Netherlands) and myself had a meeting in July 2008 in Portugal and finalised this project.

The proposal was discussed at the meeting in Munich and is now submitted to the General Committee.

I strove at many international shows in foreign countries for the observance of our minimum requirements which unfortunately are not yet sufficiently complied with.

Horst Kliebenstein President of the FCI Show Judges Commission

FCI SHOW COMMISSION - 2008 ACTIVITY REPORT

The FCI Show Commission together with the FCI Judges Commission organises a meeting for all member countries the first weekend of February every year. In 2007, the meeting was held in Nicosia with 21 delegates and in 2008, in Amsterdam, with 24 delegates. In 2008, Leif-Herman Wilberg (Norway), and Nic Schwab (Luxemburg), were re-elected as President and Vice President.

The Commission feels that the member countries see these commissions as important commissions, as the attendance is gradually expanding. The attendance from the European Section is very good, but last year we also saw delegates from Columbia and Uruguay, which was very positive. The main reason why the South American, Asian and African kennel clubs do not send delegates is the cost, as the national kennel club will have to pay for the delegates. So far all the meetings have been taking place somewhere in Europe where the density of countries and dogs is the highest.

The Show Commission involves itself in matters regarding show regulations and activities regarding the international dog show scene. As the FCI Show Regulations should only be changed every 5 years, and the last change was done in 2006, the commission is in an in-between stage before we start the work of adjusting/developing the regulations for the 2011 change.

As president my ambition is to see the same show regulations working in every member country, and sorry to say this is still not the case. The president's ambition is also to develop the Show Regulations so that FCI dog shows will be as interesting as possible to attend, judge and watch. Every sport or business will always try to develop its product to make it more interesting to the athletes, spectators or buyers, and some small adjustments to the Show regulations would bring much more excitement into the FCI dog shows for all parties involved.

The commission asked the General Committee to set focus on the breeds nomenclature and the amount of CACIBs being given out to sizes, colours and coat varieties which is not at all logical as it is today. Many "breeds" have the same breed number and the same standard, yet they are judged as different breeds and given CACIBs in different sizes, colours or coat varieties, whereas other breeds that could easily have been split up in the same amount of sizes, colours and coat varieties are judged as the same breed with one CACIB. Every size, colour or coat variety that is not allowed to cross-breed should be one breed with one breed number, with one CACIB for each sex. If varieties are allowed to cross-breed, that must mean that they are the same breed and should also have one breed number, and one CACIB for

each sex. To unnecessary divide breeds will only reduce the gene pool and make the breeding of sound dogs more difficult. The quality of the dogs will suffer, and one of our main aims should be, to make beautiful, sound, functional dogs according to the breed standard. The commission also asked the General Committee to forward the concern about disqualifying faults in the standards to the Standard Commission. In many standards the list of faults, serious faults and disqualifying faults is almost longer than the standard itself, and the faults that qualify for disqualification could be: too broad or too narrow scull; roman nose, dish face; deviating plane between muzzle and scull; one tooth missing; one centimeter too big or too small; different colours.

In every standard the following sentence is now included:

FAULTS: Any deviation from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree.

In a time where the focus in the public opinion and

politicians is on soundness in the breeding of pedigree dogs, and dangerous dogs, the sentence about faults should be enough. Dog judging should not be about counting and measuring, but in every breed to find the soundest dog best able to do the work it was designed to do.

The commission proposed to make a European Judges Guide to facilitate the work for show organisers to find suitable judges for their needs. The Scandinavian Judges Guide was proposed as the matrix and the FCI European Section asked the Norwegian Kennel Club to administer this work. The European Judges Guide is now working, and the judges from many countries are already to be found in the same guide. The South American delegates in the commission wanted the guide to be a world-wide guide, but that is up to the FCI General Committee to de-

FCI COMMISSION FOR SPANIELS - 2008 ACTIVITY REPORT

I was appointed as Representative of Italy in the Commission for Spaniels by ENCI in 2007, appointment being in force from the year 2008.

I attended the meeting of the Commission held in Sweden on March 8th, 2008.

In the Agenda of this meeting there was the election of President of the Commission for Spaniels for the threeyear term and I was elected President.

I was also charged to write Rules for the European Cup for Spaniels (currently none) and to organise such event in Italy.

In fact, the competition took place in Italy - in the

province of Arezzo on November 9-10, 2008 with the participation of Belgium, Spain, Sweden, Italy and some competitors from France.

Furthemore, it was decided that the yearly meeting will be held in Rome (Italy) next May. On that occasion the eventual remarks and alterations to provisional Rules can be submitted and the venue for the 2009 edition will be decided too.

With my best sports regards,

Domenico Coradeschi President of the FCI Commission for Spaniels

FCI COMMISSION FOR CONTINENTAL POINTERS - 2007-2008 ACTIVITY REPORT

1. Members of the Commission Board Mr. Antonio M. Fernández, Spain, President Mr. Jacques Goubie, France, 1st Vice-president Mr. Anders Eriksson, Sweden, 2nd Vice-president

2. Meetings of the Commission

The members of the FCI Commission for Continental Pointers met for their usual sessions in Fagagna (UD), Italy, on March 8th, 2007 and in Neprevazka, Czech Republic on April 17th, 2008. They all appreciated the continuous, wonderful cooperation and the spirit of mutual respect. The meetings were held in total harmony and all the decisions were taken unanimously.

3. Spring European Cups

The 2007 European Cup was organised on March 9th in Pasian di Prato - Martignacco (UD) Italy, on the beautiful hunting fields put at our disposal by the Ente Nazionale della Cinofilia Italiana (ENCI). 47 dogs were entered, from 13 different countries: Belgium, Croatia, Cyprus, Denmark, France, Greece, Hungary, Italy, Poland, Serbia Montenegro, Spain, Sweden and the Netherlands. One dog from Czech Republic participated individually.

The male Britanny «Tuno de los Cuellaranos», handled by Mr. Manuel Blanco (Spain), won the individual event and Italy won the team event.

The 2008 European Cup was held on April 18th in Mlada Boleslav and Neprevazaca, Czech Republic, on excellent hunting fields provided by the Ceskomoravská Kynologická Unie (CMKU).

50 dogs participated from 14 different countries: Belgium (2 dogs), Croatia (4 dogs), Czech Republic (4 dogs), Denmark (4 dogs), France (4 dogs), Italy (4 dogs), Poland (4 dogs), Portugal (3 dogs), Serbia (4 dogs), Slovakia (3 dogs), Spain (4 dogs), Sweden (4 dogs), the Netherlands (4 dogs) and the United States (2 dogs).

The male German Short-haired Pointing Dog « Amor od Bube », handled by Mr. Hari Herak from Croatia, won the individual event and Croatia also won the team event.

On behalf of the Commission, I would like to thank both the ENCI and the CMKU and their respective organising teams for their cooperation and their hospitality. We hope that this event will go on contributing to promote cooperation and friendship among the participants in favour of our continental pointing dogs.

Finally, I would also like to express my most sincere gratitude for their magnificent collaboration to the members of the FCI Commission for Continental Pointers and to the FCI Secretariat, especially to Mr. De Clercq.

International seminar for judges

In 2008 the commission organized its 4th international seminar for judges in Nova Gorizia, Slovenia. These seminars are meant as continuing education for working tests judges. The objective is to contribute to a uniform evaluation by the judges. It is hoped that this seminar will have a multiplying effect and will contribute to reaching a greater uniformity in the evaluation of the dogs' performances

These seminars are unexpectedly a great success. In 2008, 47 judges from several countries took part. Judges from the American Working Dog Federation also attended as was the case in 2006. The FCI Commission for Utility Dogs warmly thanks the organizers for the organization of this excellent seminar.

Guidelines for International Working Dog Trials and International Tracking Dog Trials of the FCI (IPO)

A proposal of amendment concerning "the starting point in tracking dog trials" was approved by the FCI General Committee in Berlin, October 31st 2007 and is effective

since January 1st 2008. The changes were brought to page 8 (Titles) and to the International Tracking Dog Examination (IPO-FH).

FCI Guidelines for awarding the CACIT

Thanks to the good cooperation with the president of the Herding Dogs Commission and with the help of the FCI office a common proposal "Guidelines for awarding the CACIT at International Herding, Utility and Tracking Tests" was drafted and approved by the FCI General Committee on October 31st 2007.

FCI Website

A proposal from the FCI Commission for Utility Dogs for a section on the official FCI website dedicated to the FCI Commission for Utility Dogs in the 4 FCI official languages was approved by the FCI General Committee and is effective since 01.01.2008. On this web page one can find information about : the activities of the Commission for Utility Dogs, a list of the members of the commission (with names and e-mail of the delegates), the Guidelines for International Working Dog Trials and International Tracking Dog Trials of the FCI (IPO), the Specifications for the organization of the FCI IPO World Championship for Utility and Tracking Dogs, several FCI regulations, the FCI Guidelines for the pool of judges and the FCI pool of judges.

Conclusion

Finally I would like to thank all the delegates of the Utility Dogs Commission for their support and active cooperation, the FCI General Committee for their positive consideration of our proposals, which we also understand as an appreciation of our work, and also the FCI Office for the good cooperation.

FCI COMMISSION FOR RETRIEVERS - 2008 ACTIVITY REPORT

In 2008 two international Retriever events were held:
1) The Austrian Retriever Club was honoured to have been selected by the FCI Commission to host the **International Working Test (IWT)** in Seefeld, Austria on June 7th & 8th in 2008. The IWT is a particularly important international team event, judged in accordance with the International Working Test Regulations, that has gained popularity among retriever handlers all over Europe as it shows the dedication to maintain a high level of working ability in our retrievers. It has therefore become an established international platform to exchange expertise and experiences in gundog training.

Seefeld in Tyrol was chosen by the Club because it offers the variety of grounds expected in such an international competition. The dogs could be tested on open fields, on water, in thick cover, in the woods, and over fences thus allowing the judges to get a thorough picture of each dog's working abilities.

For the first time in its history, the IWT 2008 received an unprecedented amount of entries from all over Europe. The number of official teams amounted to 33 (3 teams more than the rules had previously admitted) and the number of free teams to 20. Never before had the interest in this competition been so high! For the first time, due to the large number of official teams, no free team could be accepted unfortunately.

Most of the European countries were represented by at least one team: Austria, Italy, Germany, Switzerland, Hungary and The Netherlands participated with 4 teams; Denmark, France and Norway with 2 teams; Finland and Sweden with one team.

As a rule, the judges were British nationals and the Club is proud to have secured experienced judges such as Jim Gale, Phil Allen, Phil Parkins, John Drury and Keith Bedford. The judges were keen on testing the dogs in every possible working situation as it would happen during a normal shooting day. It was their priority to ensure that the tests were shooting-related but fair, and it was their wish to set up tests where all the retrievers' abilities could be shown. For this reason, they decided not to let the teams make their choice with regard to which dummy to be retrieved. The judges were therefore able to test the dogs thoroughly, objectively and in different field conditions: long marked retrieves, blinds, memories, retrieves in thick and difficult cover or over fences gave everyone the chance to see the best dogs shine!

The winning team was The Netherlands 1, Switzerland 1 was awarded the second place and Italy 2 ended up third. All three teams ended the competition without any "zero score"!

Everyone is looking forward to the IWT 2009 in the Netherlands.

2) The **Individual Challenge Cup (ICC)** was this year in Hyvinkää, Finland on November 8th & 9th in 2008. The event was organised by co-operation with Finnish retriever organisation, Labrador retriever club, Flatcoated retrieverand Golden retriever organisations. Headmaster of committee was Ville Kotka. Judges of the ICC were Heike Klieber (AT), Lars Johnson (SE), Keld Jörgensen (DK), Tony Parnell (GB), John Greeves (GB) and Raimo Huhtiniemi (FI).

All FCI countries had the opportunity to take part. There were retrievers out of seven different countries (Austria, Belgium, Denmark, Finland, Italy, Norway, Sweden). Dogs selected by their home-nations, took their chance to attend the 2008 event, all in all 20 Labradors and one Golden Retriever.

Field trial ground was on Saturday in Janakkala, on Sunday ground was in Mäntsälä. The Field trials were both days organized as a driven hunting of the pheasants.

The annual meeting of the FCI Commission for Retrievers was held on November 7th in Hyvinkää, Finland. Two new delegates Pauliina Ahola (FI) and Guy Matter (CH) were welcomed due to the retiring of Andrea Standerskjöld (FI) and Malu Marx (CH) after many years as members of the commission. According to the increasing standard of the retriever work on the continent it was decided to revise the FCI Field Trial and the FCI Working Test rules according to the British rules within the next year. British A- and B-panel judges should be allowed to judge such events. The minutes of the meeting are sent to the FCI office.

Finally, I would like to express my gratitude to the very professional, competent and effective staff at the FCI Office

FCI COMMISSION FOR BRITISH POINTERS - 2008 ACTIVITY REPORT

The FCI Commission for British Pointers only held one meeting in 2008. The competitions ran smoothly and our commission's decision not to take into account the General's Committee resolution relative to the handlers during the European Cup (one handler per country) was highly appreciated. We will adopt the same position in 2009, even if we do not get any CACIT: anyway, a dog which wins the Cup can at any time win a CACIT at a Large Quest trial. In addition, there is no restriction relative to the competitors for this type of competition.

The commission still wonders how its responsibility is involved; the question was addressed, but remains unanswered.

We never met the member of the General Committee responsible for our commission, in spite of my request.

The commission is rather unsatisfied with the General Committee's taking decisions without consulting the respective commissions, like the decision to create the new International Show Champion title where working tests are no longer required. This situation is working against the recognition of working skills and the risk is that dogs are bred which are worth nothing as working dogs. This

cannot be the aim of the FCI.

As President of the working group for all hunting dogs to the CIC (Conseil International de la Chasse et de la Sauvegarde du Gibier) which gathers more than 80 countries, I must personnally inform about the discontent of the Hunting world. This mater will certainly be one point in the agenda of our AG in Paris at the end of April and is likely to make the gap between hunters and dog fanciers deeper.

Besides, as far as the sizes of English Setters, Gordon Setters and English Pointers are concerned, we have not made any progress since M. Paschoud's presidency. We hope that the General Committee will finally take our complaints into consideration and I am ready to visit the FCI General Secretariat in order to discuss them with Mr Müller and Mr De Clercq.

I think that if the General Committee is interested in the 2011 symposium (which should bring dog fanciers and hunters closer together), a meeting is necessary.

FCI COMMISSION FOR HERDING DOGS - 2008 ACTIVITY REPORT

The year 2008 has been very important for our commission, because, after 6 years of work we have succeeded in setting up the regulations for our sheepdog trials. Two international rules for sheepdog trial: the Traditional Style (excluding Border Collie/Kelpie) and the Collecting Style for Border Collie and Kelpie exclusively.

Two Herding Working Tests $\rm ``FCI-HWT"$ Traditional Style and Collecting Style are carried out to evaluate the qualities of the dogs, such as herding aptitude, obedience, initiative and gentleness.

The commission met on the 5th and the 6th of April 2008 in Austria. During this meeting we established the rules, enforceable since June 2008.

We elected a new president, Jean Paul Kerihuel, and a new secretary, Wilfried Scheld.

France organised the first championship Traditional Style in St. Gervais d'Auvergne, on the 19th of October 2008.

The 3 judges - Wilfried Scheld (Germany), Daniel Schwartz and Philippe Heintz (France) - were very satisfied with the results.

The winner of the 1st European Sheepherding Championship 2008 was D. Babillot from France with his Berger de Beauce "Tchad Du Chant Des Bergers". This dog convinced with its calm and self-confident work, as well as its very good obedience.

The runner-up was Mrs Farnoux from France with the Pyrenean Sheepdog "Reve Des Transhumants".

The third was Mr Voigt from Germany with his German Shepherd Dog "Imax vom Dolderbrunnen".

During our meeting in Zurich in 2009 we will establish the selection mode for our championships.

FCI COMMISSIONS FOR RESCUE DOGS - 2008 ACTIVITY REPORT

Meetings

The delegates from FCI countries took part in two meetings (14.03.2008 and 15.03.2008 in Regensdorf /Switzerland and 31.08.2008 in Zatec/Czech Republic). AWDF (American Working Dog Federation) representatives also participated as guests. I thank all delegates present for their cooperation.

Election of the president and vice-presidents

Elections were held during the meeting of 14/15.03.2008.

President :	Frans Jansen, the Netherlands	
Vice-president :	Helena Sabatova, Czech Rep.	
Vice-president:	Bruno Picinelli, Italy	
Vice-president:	Ken Honda, Japan	

FCI World Championship for Rescue Dogs Team Competition

The first World Championship for Rescue Dogs Team Competition was held on 29 – 31 August 2008 in Zatec (Czech Republic). 7 countries accepted the challenge and sent their teams to Zatec despite the short preparation time. Austria, the Czech Republic, Germany, Hungary, Italy, Japan and Slovakia entered the competition which was judged by a team of trial judges from the Netherlands: Dr. Resi Gerirtsen and Mr Ruud Haak and the Czech Republic: Mr Willem Babitska. Mr Wladimir Kuchta

(also from the Czech Republic) was supervisor. Mr Bruno Piccinelli from Italy was the official observer of this first World Championship. Hungary won the title of World Champion with a strong and experienced team.

We would like to extend our thanks to the organizers and especially Mrs Helena Sabatova and her big team. Several teams did an exceptional work at this first World Championship.

FCI Guidelines for awarding the "CACIT"

Thanks to the good cooperation of the delegates and with the help of the FCI office a proposal "Guidelines for awarding the CACIT at International Rescue Dogs Tests" was drafted and is submitted to the General Committee for approval.

Guidelines for the "International Working Champion Title"

Thanks to the good cooperation of the delegates and with the help of the FCI office a proposal "Guidelines for the International Working Champion Title for Rescue Dogs" was drafted and is submitted to the FCI General Committee for approval.

Guidelines for the "International Beauty Champion Title"

Thanks to the good cooperation of the delegates and with the help of the FCI office a proposal "Guidelines for the International Beauty Champion Title for Rescue Dogs" was drafted and is submitted to the FCI General Committee for approval.

FCI Website

A proposal of the Commission for Rescue Dogs for an official website in the 4 FCI languages was drafted by a working group and is submitted for approval to the General Committee.

On this web page one can find information about: the activities of the Rescue Dogs Commission, a list of the members of the commission (with names and e-mail of the delegates), International Testing Standards for Rescue Dog Tests of the Fédération Cynologique Internationale FCI (IPO-R), Specifications for the organization of the FCI World Championship for Rescue Dogs, several FCI regulations, the FCI Guidelines for the pool of Rescue Dogs judges and a FCI pool of Rescue Dog judges.

International Testing Standards for Rescue Dog Tests (IPO-R) and International Rules for Rescue Dogs Team Competition

A working group was created during the meeting of the FCI-Rescue Dogs Commission (31.08.2008 in Zatec /Czech Republic). The task of this small working group is to amend/adapt the two documents together with the IRO and submit these to the Rescue Dogs Commission.

Conclusion

Finally I would like to thank the delegates of the Rescue Dogs Commission for their support and active cooperation and also the FCI Office for the very good cooperation.

Frans Jansen

President of the FCI Commission for Rescue Dogs

FCI COMMISSION FOR SLEDGE DOGS - 2008 ACTIVITY REPORT

After some 20 years since its last meeting, the revived FCI Commission for Sledge Dogs held its first meeting in Paris on 19th and 20th of April 2008 at the invitation of the French Kennel Federation "Société Centrale Canine".

For countries where sledge dogs and their work are important, this was a very positive event, particularly since the FCI opened the "working dog" class in all international dog shows giving a CACIB for the four sledge dog breeds (Alaskan Malamute, Siberian Husky, Samoyed and Greenland Dog). Such a decision will certainly help developing the work of these dogs in all FCI Member countries and not only where there is snow...

The first meeting was intended to be devoted to the exchange of information about what is already done in various countries and to set up the agenda for the future. Here I would like to express my personal thanks to the President of the FCI, Mr Hans Müller, and to Mr Yves De Clercq, Executive Director, for their support and their help.

The executive director of the FCI, Mr Yves De Clercq, opened the first meeting of the Sledge Dog Commission and welcomed all participants. Then Mr De Clercq started a general presentation of the FCI and its committees. He also explained how the various International FCI titles are delivered at the time and the situation for the four sledge dog breeds. At the end of the presentation, all delegates introduced themselves and gave a brief presentation about their activity in their respective national kennel associations. The commission then proceeded with the election of its Bureau.

Mr Franco Mannato (France) was elected President of the commission, Mr Henrik Soeborg (Denmark) Vice-president and Ms Eveline Koch (Sweden) Secretary. Of course, the commission immediately agreed that it will be working for the four breeds recognised as sledge dogs breeds, namely Alaskan Malamutes, Greenland dogs, Samoyeds and Siberian Huskies.

The main goals of the commission were defined as:

- To set up international tests and regulations to access the "Working Class" in dog shows;
- To set up recommendations for the education of sledge dogs show judges;
- To set up regulations for the education of sledge dogs working judges, to enable, in the future, the possibility to deliver CACIT for sledge dogs;
- To set up harmonised requirements for titles of : FCI International Beauty Champions;

FCI International Working Champions;

• To organise, in future, World or European FCI Championships.

During the two days of the meeting, many different views were expressed as there is quite a difference between countries where the sledge dogs activity is in place since a long time and others where it is just at the beginning or has to start yet. The commission will help these new countries to develop the activity.

However, the exchange of information was extremely positive and an agreement could be reached on quite some issues. A set of recommendations was prepared to be presented to the General Committee at its meeting in the fall of 2008.

Franco Mannato

President of the FCI Commission for Sledge Dogs

FCI COMMISSION FOR SIGHTHOUNDS RACES - 2007-2008 ACTIVITY REPORT

The FCI Commission for Sighthounds Races held its 2007 annual meeting in Beveren (Belgium) on August 31st, one day prior to the FCI Europe-Race-Championships. The President of the Commission, Mr Martin Haas, was re-elected for the next two years. A new Secretary was elected: Mr Henk Hendricks, from Belgium.

The commission discussed some guidelines concerning the education and training of coursing judges. There is a need for improvement and some standardisation in the member countries. The delegates should discuss these guidelines in their countries and send their remarks to Mr Hedberg (SE) who will formulate a definitive proposal.

The FCI Board asked the commission for a proposal to a new FCI-Championship for Beauty and Performance. The different proposals of the commission members are to be discussed in the member countries. The proposal to the Board will be made in our next meeting.

Mr Mentzel, member of the German sighthound racing commission, made a PowerPoint presentation in which he gave an impression of potential hazardous equipment and/or its position on racing tracks. All members of the commission received a copy.

In 2008, we held our meeting in Oude Pekela (the Netherlands) on June 6th, on the occasion of the FCI Sighthounds Race World Championship.

Rules for the education and training of coursing judges had been worked out by Mr Hedberg.

The commission approved but decided not to immediately insert these rules into the Rulebook, for it may take a few years before the member countries adapt their na-

tional schemes. It is only after proven usefulness that an insertion in the Rulebook will be taken into consideration.

The commission had a long discussion about the European and World Championships.

Because of the fact that on both championships the same dogs from the same countries compete, the majority of the commission decides to alternately organise the FCI European Championship in the odd years (from 2009 on) and the FCI World Championship in the even years (from 2010 on).

A proposal for the Sighthound Championship in Beauty and Performance has been sent to the General Committee

The Netherlands started a new discussion about the number of dogs that can participate in the Friendship races at the FCI-Championships. The number of entries, especially in whippets, was too large thus putting extra pressure on the organisation which maked it necessary to consider some changes. Belgium will prepare a proposal for the next meeting, to be held in Gelsenkirchen (Germany) on September 4th 2009.

Another proposal of the Netherlands was to raise the entry fee for the Championships of $5,00 \in to 25 \in to$ for racing and total 30 for coursing. From the latter, $total 5 \in total 5$ will be used to partially refund the judges for their travelling expenses.

FCI BREEDING COMMISSION - 2008 ACTIVITY REPORT

The annual meeting of the Breeding Commission was arranged in Bern, Switzerland May 24th 2008. Representatives form the following member countries were present: Austria, Cyprus, Czech Republic, Finland, France, Italy, Latvia, Luxemburg, Norway, Sweden, Slovenia and Switzerland. The members of Belgium, Denmark, Germany, Hungary, the Netherlands, Lithuania and Portugal were excused.

Dr Astrid Indrebø (Norway) was elected as President, Ms Maissen-Jarish (Austria) as Vice-president and Dr Kirsi Sainio (Finland) as Secretary of the commission.

Important issues at the meeting, put forward to the General Committee

Identification of the dog in screening tests

The control of the dogs' identification, by tattoo or chip, is of uttermost importance to assure the correct diagnosis. In all health test protocols, including radiographic screening and DNA-tests, the identification must be checked and certified by the veterinarian who performs the examination, and the certificate of the test result must include the dog's identification.

In radiographic screening, the ID must be photographed directly to the x-rays and the result must be read in the country where the dog's owner lives.

Ownership of kennel name and of dogs

There must be one responsible person for the ownership of the kennel name, and this person must live in the country where the kennel name is issued. The same must apply to the ownership of dogs. This person must be the first in the list of owners.

Cross-breeding in rare breeds

In the case of rare breeds the gene pool could be extended by cross-breeding, but this should only be done so that the country of origin/standard is first consulted.

One dog - one pedigree

There must only be one pedigree and only one export pedigree, which should also contain the name of the owner of the dog. The Standing orders (art 8-10) should be followed.

Other issues

Breeding education

Education of breeders is of uttermost importance to en-

sure healthy dog breeding. The commission agreed that the member countries should send to the president, prior to October 2008, information concerning breeding education in their country. It will then be possible to get new ideas for the FCI in breeding education to all FCI countries. The legal issues in different countries are variable and this should be taken into account. The education should therefore be on volunteer basis. The issue will be further discussed at the next meeting.

False pedigrees

Several countries have problems with false pedigrees from Hungary. It was agreed that every commission member from countries that have this problem, should forward the false pedigrees followed by an explanation how to see that the pedigree is false, to the president prior to 1st August, 2008. The proof will be sent to the FCI board, and FCI is able to discuss the issue further with the Kennel Clubs in question.

Unregistered pure bred puppies

The Breeding Commission recommends to the member countries NOT to have too strict breeding rules and regulations, to avoid a large number of unregistered dogs.

Breeding strategy

A main issue in 2009 will be to finish a proposal for a common FCI breeding strategy. A preliminary proposal was presented by the president of the commission at the Bern meeting. The members of the commission will discuss the proposal with their Kennel Club prior to the 2009 meeting. The article *The importance of breeding programmes*, written by the president, has been published in FCI Magazine 2/2008 (part 1) and 3/2008 (part 2), where suggestions of basic rules and recommendations for healthy dog breeding were presented.

The next meeting of the FCI Breeding Commission will be in Florence, Italy, 23rd May 2009.

Astrid Indrebø

President of the FCI Breeding Commission

FCI AGILITY COMMISSION - 2008 ACTIVITY REPORT

The FCI Agility Commission is relatively stable as far as the number of delegates is concerned; 27 countries are represented. It meets twice a year: first in the beginning of February, in the country organising the Agility World Championship, and then just after this event.

In September 2008, Finland hosted the Agility World Championship in Helsinki. It was a big success at all levels: a perfect organisation and a sporting atmosphere befitting of this global event, which honours the FCI. Let the Finnish Kennel Club be thanked for the warm welcome they gave.

The Agility World Championship has become an important global event, which is impatiently longed for by all the fanciers of this discipline. In addition, Agility - an archetype among educational disciplines – undisputably contributes to the harmonious integration of dog in the every-day life, which is all credit to cynophily.

Austria was the candidate to the organisation of the 2009 Agility World Championship, to be held in Dornbirn. Our best wishes to Austria for a big success in this Championship.

The Senior and Junior European Opens were a remarkable success. These events, open to all dogs, perfectly meet the demand of dog owners who are happy to officially enter the dog scene through these activities.

Let the FCI General Committee be thanked for accepting them as part of our calendar.

Let us also wish a big success to The Netherlands and Hungary as organisers of the 2009 European Senior and European Junior, respectively.

The "Judges" Working Team organised its first training meeting. About fifty judges representing 20 countries attended. The trainees highly appreciated this training, which offered them the opportunity to exchange constructive points of view and to "make their judging consistent".

As a conclusion, I would like to emphasize the excellent work carried out by the members of the FCI Agility Commission who have always officiated in a positive and friendly spirit. I would like to thank them for their commitment to cynophily and for the confidence and friendship which they always offered me.

The FCI Agility Commission thanks the President of the FCI, Mr. Müller, the General Committee and the Executive Director, Mr. De Clercq, for their constant support and wishes to assure them of its dedication to fulfill its assignment.

Jean Paul Petitdidier President of the FCI Agility Commission

FCI OBEDIENCE COMMISSION - 2007-2008 ACTIVITY REPORT

In the year 2007, we had the European winner during the European dog show in Zagreb.

Fourteen nations participated in this event, which was organised by the Croatian kennel club, in an excellent manner under the chief steward Mrs Bozena Soko and the president of the Croatian kennel club Dr Skok, who - in spite of the huge responsibility of the European dog show - helped us personally, even with transport for the judges. Each of the 68 competitors was highly impressed and, again, in this report, I would like to say "thank you very much".

On July 1st, 2007 a Joop de Reus memorial competition was held in the Netherlands. This event was also a full success; many thanks to he Dutch kennel club and Ton Hoffmann. Starters from Belgium, Germany, Austria, and the Netherlands participated. In 2008, the competition was held in Germany; many thanks to Mr Uwe Wehner for his outstanding organisation.

In October 2007, we had our annual commission meeting in Italy - Turin where we also decided to work intensively on international classes one and two for obedience, to be ready for 2011.

I was invited by the kennel club of Japan in September to give information to judges and trainers and I am convinced that Japan will be in 3 years part of the international competition.

In 2008, the World championship was held in Stockholm (Sweden) during the world dogshow. Sweden as the

mother-country of obedience did this in a perfect way. In addition, the Czech Republic started obedience and already planned 9 competitions for 2009. Slovakia started to be interested. Seminars for judges were also held in the Czech Republic in 2008.

In October 2008, our commission meeting was held in Amsterdam (the Netherlands). I would also like here to express my gratitude to the Dutch kennel club and Mr Ton Hoffmann for their outstanding hospitality.

Obedience is gaining on popularity, but still too many member countries are afraid of supporting it enough in their own kennel clubs. Because, in many cases, they have local obedience rules which in most cases are very simple, actually only meant for handlers and dogs who are not really interested in working having fun.

So one of our future aim is to convince the member countries that all national obedience rules should have one goal: that their handlers reach the international FCI obedience level.

In 2009, Slovakia will host the World-winner obedience during their World Dog Show in Bratislava. I am very grateful to Mr Stefan Stefik, for the support he is already giving us, so that I am convinced that this event will be fantastic.

Johann Kurzbauer President FCI Obedience Commission

FCI FERRETING COMMISSION - 2008 ACTIVITY REPORT

The delegates of the FCI Commission for Ferreting Dogs convened once in 2007, 2008 and 2009.

Traditionally the meetings take place at the same time as the annual meeting of the "Weltunion der Teckel" two days in a row. It is therefore easier to find common points of view between the two organisations not only to collect information about the problems, but also to be able to discuss the points of the agenda and outstanding matters.

A high number of delegates from the national canine organisations attended these three meetings.

The assignment (to the countries which had applied for) of the organisation of the European Cup Multiple Trials for the years to come could be done in time, which will make it possible, for the future, to continue and compare the work of top-quality teckels.

The organisation of European Cup Multiple Trials has now been assigned to member countries of the Ferreting Dogs Commission until 2013.

The commission for Ferreting Dogs has been willing for some time now to write new international regulations for a complete working test (Vollgebrauchsprüfung - VGP) which could be used by most member countries, which would comply with the European animal protection ideas, the legislative requirements and realities but also the respective national animal protection laws.

A proposal was presented to the delegates of the Ferreting Dogs Commission at the last meeting, discussed in detail and approved with a few changes.

The FCI Ferreting Dogs Commission decided to submit the regulations for a complete working test (VGP) for Teckel to the FCI General Committee.

REPORT TO THE FCI GENERAL ASSEMBLY ON THE ANNUAL ACCOUNTS FOR THE FISCAL YEAR ENDING 31 DECEMBER 2008

Pursuant to the request of Mr DE CLERCQ, Executive Director of the FCI, we submit our report in our capacities as external auditors.

We audited the annual accounts for the fiscal year ending 31 December 2008, drawn up based on the fundamental accounting principles as applied in Belgium, for which there is a balance sheet total of € 3.145.894,11 and for which the profit and loss account shows a profit for the year of € 109.799,39.

Our responsibility is to give an opinion on these annual accounts based on our audit. We executed our audit in compliance with the legal provisions and in accordance with the auditing standards that are applied in Belgium, as decreed by the *Institut des Reviseurs d'Entreprises*.

These auditing standards require that our audit be planned and executed to obtain reasonable assurance that the annual accounts do not have any significant anomalies, whether they result from fraud or from error.

In accordance with the above-mentioned auditing standards, we took into account the Federation's administrative and accounting organization as well as its system of internal control. We obtained the explanations and information we needed for our audit from the Federation's managing body and its officers. We examined, on a test basis, the evidence supporting the amounts that appear in the annual accounts. We assessed the accounting policies used and the reasonable nature of the significant accounting estimates made by the association as well as the overall presentation of the annual accounts. We believe that the audit provides a reasonable basis for our opinion.

In our opinion, the annual accounts for the year ended 31 December 2008 present fairly the assets, the Federation's financial position and its results of its operations in conformity with the general accounting principles as applied in Belgium.

Additional comments and information

Respect by the Federation of the Law of 27 June 1921 on non-profit associations, non-profit international associations and foundations, and of statutes, falls under the responsibility of the managing body.

Our responsibility is to include in our report the following additional comments and information that do not alter our audit opinion of the annual accounts:

- without prejudice to certain formal aspects of less importance, the accounting records are maintained in compliance with the legal and regulatory provisions that apply in Belgium;
- as for the rest, we need not indicate any transactions concluded or decisions taken in violation of the statutes or of the Law of 27 June 1921 on non-profit associations, non-profit international associations and foundations.

Fayt-lez-Manage, 24 March 2009,

FONDU, PYL, STASSIN ET CIE S.C.R.L.

J. LENOIR, External auditor

TREASURER'S REPORT

- Financial Statements were made in conformity with accounting principles generally accepted in Belgium.
- The audits were conducted by the external accounting firm, Fondu, Pyl and Stassin.

Letter of Understanding between FCI and AKC

WHEREAS the Fédération Cynologique Internationale (FCI) and The American Kennel Club (AKC) share the common goals of promoting and protecting purebred dogs; and

WHEREAS the parties hereto have in the past cooperated to a certain extent in carrying out this object and have been acting pursuant to certain informal agreements made from time to time for that purpose; and

WHEREAS it is agreed that the relations between AKC and FQ and its member registries should be explicitly written with a view towards future cooperation;

NOW, this letter of understanding encompasses the mutually agreed to basis for the relationship between the parties as follows:

- AKC will recognize the pedigree for any FCI registry that meets AKC requirements and that wishes to have such recognition.
- AKC will not automatically give exclusive recognition to the FCI registry in any country in which there are multiple registries and FCI will not automatically give exclusive recognition to AKCs registry in the United States.
- 3. AKC will not register any dog born in an FQ member country until that dog has been registered in the Stud Book of the FQ registry or the AKC-recognised registry in that country. No dog born in the USA, belonging to breeds recognised by the AKC, will be registered by an FQ member registry unless the dog has been registered in the FQ-recognised registry in the United States. It is up to the FQ to decide about the registration of dogs born in the USA belonging to breeds not recognised by the AKC.
- 4. Each of the parties agree that when any information comes to its knowledge which might reasonably affect or be useful to the other party (AKC judges suspension, amended standards, etc.), it will immediately communicate such information to the other party.
- FCI and AKC will deal with the judging approval reciprocity in a separate document (see attachment).

- 6. AKC will not sponsor any event in the country of an FQ member without the express permission of FQ and the FQ member. FQ will not sponsor any event within the territory of the United States without the express permission of AKC. Puerto Rco is exempted from this provision as both AKC and FQ have been previously sponsoring activities on that island.
- 7. While not an FO member, FO has graciously agreed to permit AKC to participate in its World or Section Agility, Utility, Obedience, etc. Championship Championship Event provided that this participation does not prevent representative teams of FO member organisations from taking part. If the AKC teams win the competition, they are not eligible for the title of FO Winner at these events.
- AKC registered dogs are eligible for the title of FCI International Champion under specific conditions to be agreed upon by the AKC and FCI.
- Except with the agreement of the AKC, the FO will not register kennel names for breeders living in USA (with exception of Puerto Rico) and, except with the agreement of the FO, the AKC will not register kennel names for breeders living in countries where the FO has a member, which the AKC has accepted.
- 10. FCI agrees to send to the AKC headquarters all revised breed standards and AKC agrees to send to the FCI headquarters copies of its Complete Dog Book, which includes all AKC standards, each time that such publication is revised.
- 11. The terms of this letter of understanding is agreed to by the parties listed below. This agreement may be terminated by either party upon reasonable notification to the other party.

Agreed upon further to the meeting held in New York, July 16, 2008

Breed Judging

At FO CAOB international shows, the AKC judges are eligible to judge and award the CAOB provided that the two following conditions are fulfilled:

- the breeds they are scheduled to judge are recognised by the AKC (this does not include FSS and Miscellaneous classes).
- the judges in question are allowed to judge, under AKC regulations, the breeds in question at AKC events and award them championship points. An AKC judge, residing in the United States, may not be approved as an FO judge (breed, group, all breed) eligible to award CACIB.

At AKC events, the FO judges are eligible to judge and award championship points provided that the following conditions are fulfilled:

- the breeds they are scheduled to judge are recognised by the FO and by the national kennel club, in their country of residence, which has jurisdiction over the judges in question
- the judges are members of their national kennel dub, in their country of residence, which is an FO member or contract partner
- the judges in question are allowed to judge, under FO regulations, the breeds in question at FO International CAOB shows and award them the CAOB

Group and BIS Judging

It is up to both, the AKC and the FCI members, to choose to invite or not a judge to judge a particular group (according to FCI or AKC breed nomendature) at an AKC event or at an international FCI CACIB show taking into consideration the experience of the judge, his judging credentials and the breeds and their numbers in the groups to judge.
